

## A.P.E.S.

During the school year, there will be community service hours required. There will be ample opportunities during the regular school year to do these hours. Some of that may be served during the summer. However it must be approved in advance (or it might not be counted). The number of hours is 25 and must be done in an environmental area. Examples of areas could be recycling, wilderness or nature studies, hazardous waste programs, etc. Contact can be made by e-mail during the summer. My e-mail address is [john.krick@alvord.k12.ca.us](mailto:john.krick@alvord.k12.ca.us)

When doing your other summer work, if newspapers are not available or it is hard to find articles, a good source is [grist.org](http://grist.org). Look for the section marked Daily Grist. If you use that site, you **MUST** follow the links to the actual newspaper website that is referenced and copy it! The articles cannot be old ones. To be used, they must be current!
